SUMMARY

Full-Stack JavaScript developer leveraging a seven-year career in digital & content marketing to deliver modern, fast, and scalable web experiences. Currently seeking a challenging position where I can utilize and further hone my abilities using technologies such as JavaScript, React, and TypeScript in a collaborative dev environment.

EDUCATION

University of Denver **Denver, Colorado**
Full Stack Development Certificate, 2021

Indiana University **Bloomington, Indiana**
Bachelor of Arts Administration/Marketing, 2014

WORK EXPERIENCE

University of Denver **Denver, Colorado**
Full-Stack Web Development - Instructional Assistant *Jan 2021 – Current*

- Providing assistance to students throughout the duration of lectures, labs, team projects & practical exercises
- Grading student work product & providing constructive feedback to ensure student successes
- Managing endpoint software & server infrastructure per session (Git, Heroku, JWT & Auth0 for authentication, Express, RESTful APIs and GraphQL for middleware. Express Handlebars for server-side templating. Database administration utilizing MongoDB Atlas and MySQL Workbench)

Boulder Neurosurgical & Spine Associates **Boulder, Colorado**
Director of Marketing & Events *Oct. 2019 – Jul. 2021*

- Managed marketing strategy and events for 13 providers, five locations, and a medical research nonprofit
- Refocused website to SEO optimization and landing page creation to maximize appointment conversions, utilizing WordPress tools and custom PHP
- Launched new patient information web technologies to simplify patient information processing workflows, reducing practice resource costs by 30% and educated staff on the solutions
- Executed an annual 300+ attendee virtual educational symposium raising event fundraising goals each year
